

## Mathematics

At Clifford Holroyde SEN College we aim to ensure that our pupils develop a solid understanding of all the core elements of Mathematics.

We aim to develop successful learners by helping our pupils to understand the importance of Mathematics in everyday life. We aim to help pupils realise that a solid understanding of the subject represents a key life skill which is essential in order to function and operate successfully within modern society.

All pupils are given the opportunity to attain a range of nationally recognised qualifications including GCSE and Functional Skills Level 1 and 2.
