

At Clifford Holroyde we are passionate about THRIVE
every pupil feels valued involved and appreciated

The Thrive Approach

What does it take to develop healthy, happy, confident children who are ready and open to learning? Recent advances in neuroscience, attachment theory and child development have provided some of the answers to this question.

The Thrive Approach draws on insights from these fields to provide a powerful way of working with children and young people that supports optimal social and emotional development. In addition, the Approach can equip you to work in a targeted way with children and young people who may have struggled with difficult life events to help them re-engage with life and learning.

What's Involved

Through online tools, training and mentoring, we support you in learning about the emotional and social development relevant to a child's age. We also help you to understand a child's challenging or troubling behaviour as communication.

Every child will get an individual plan. You will be given suggestions for activities and strategies to support you to implement the plan. You can review the child's progress at regular intervals and assess and monitor their progress.
