

## Tell us your views on crime and anti-social behaviour

### Help us to develop a new plan to make our communities safer

The council's Safer and Stronger Communities team are currently working with partners to develop Liverpool's next Citysafe three year plan, which sets out what we will do to reduce and prevent crime and anti-social behaviour.

It's really important that the plan takes in to account the views of people who live, work and study in the city.

In order to capture these views they have pulled together a short survey to better understand how safe you feel in Liverpool and what aspects of crime and anti-social behaviour concern you the most.

[It takes just a couple of minutes to complete.](#)

If you provide your contact details (which is optional) you will be in with a **chance of winning £100 of Love to Shop vouchers.**

Please help to spread the word about the survey amongst family, friends and service users.

The survey is available online only and One Stop Shops can support residents to fill it in if they drop in and ask a member of staff. The survey closes on Friday 18 October.

You can read our [Citysafe Plan for 2017-20 here.](#)
